Formation of a third sub division at Soldevanahalli

Letter No. 711-12/5 dated 16/9/1944 from the Chief Engineer for Irrigation in Mysore reiterating the urgent necessity for the formation of a third sub division at Soldevanahalli.

12. It is reported that there is a provision of Rs 20,000 for the formation of a sub division in the estimate sanctioned in April 1944 for the second stage of duplication of Chamarajagar rising main. The staff is also intended for supervising first stage duplication work beyond December 1944 and Hessarghatta tank work. The proposal of the Chief Engineer is for orders.

13. Reference is requested to orders in para 11 of the notes.

2/9/44 14. The CE states that the formation of the 3rd Sub Div at Soldevanahalli is an urgent necessity as the AE Chamarajagar Sub division will not be able to devote much attention to Hessarghatta tank in addition to his own duties.

22/9/44 15. The present proposal includes over & above the provisions, the following:-

1 Store Clerk
1 Acct Clerk
1 Coolie
1 Mechanic

Out of the statement previously submitted, only 1 Asst Engr, 1 Overseer, 1 Mistry and 2 Watchmen were sanctioned and the rest sanctioned to afford necessary help for the works, as per Minister's orders in para 11 above.

19. The Chief Engineer reports that the establishment sanctioned is inadequate compared with the nature and magnitude of the works to be carried out and requests sanction to the entertainment of the marginally noted additional staff for a period of one year. The cost is proposed to be met from the provision of Rs 20,500/- made for establishment charges in the sanctioned estimate for the second stage of the duplicating main.

The total anticipated progress to end of June 1945 on the II Stage will be Rs 7 lakhs against the sanctioned grant of Rs 8,83,000/-.

26 3. The Executive Engineer, Water Supply Division, has since intimated that services of one more Sub Overseer are required for receiving C.I. pipes and special valves etc., and conveying them to the work spot. This work has been ordered to be attended to through departmental agency. The rate of conveying is reported to work out to less than 0-11-0 per ton mile including the provision for the Suboverseer. A sum of Rs 38,000 has been provided in the sanctioned project for the conveyance work.

27 Under the above circumstances sanction of Government to the entertainment of one more Suboverseer in the grade Rs 35-5/2-80-plus-Rs 15/- C.A. besides the establishment recommended in this office No.4836/E dated 18th January 1945 may kindly be obtained and communicated.

No. 1996/E

Date 22-6-44

To

The Secretary to Government,

Public Works Department,

Bangalore.

Sir,

Formation of a third Sub Division attached to the Water Supply Division, Bangalore.

I have the honor to state that the Executive Engineer, Water Supply Division, has reported that the work of distribution and maintenance of the water supply in the city has become very heavy and the Assistant Engineer in charge of No.I Sub Division will be fully engaged on this work and that he finds it very difficult to devote sufficient attention to the works situated outside the city limits. The demands made by the Military Department and the Assistant Engineer, Buildings Range, requiring his attention are also reported to be heavily pressing on him.

2. Works of importance and magnitude lying outside the jurisdiction of the city, viz., (1) duplicating rising main, (2) Hessarghatta tank works, and (3) Soldevanahalli Pumping Station, require very urgent and constant attention of an Assistant Engineer and other subordinate staff. The Assistant Engineer in charge of No.2 Chamarajsagar Sub Division too will not be able to attend to these works as his constant attention and presence would be necessary at Chamarajasagar to look after the plant and maintenance works and the construction of the two additional filters connected with the project for duplicating the rising main.

3. Provision for the formation of a Sub Division is made in the estimate amounting to Rs 13,27,375/-, which is forwarded for sanction in this office No.15052 dated 23-12-1943, for the second stage of the duplicating main. A proposition statement is herewith enclosed, for kind perusal. The extra cost per annum will be Rs 7260.

4. In the above circumstances, sanction of Government for the formation of a 3rd Sub Division at Soldevanahalli with the establishment provided in the proposition statement, for a period of one year in the first instance, may kindly be obtained and communicated.

I have the honour to be,
Sir,
Your most obedient servant,

3. The above mentioned establishment is also intended for - supervision of first stage duplicating main work beyond December 1944

Hesaraghatta Tank work as the Assistant Engineer, Chamarajasagar Sub Division cannot devote much attention to Hesaraghatta Tank in addition to his own duties. The services of this establishment will also be utilised for survey work in connection with the 3rd stage duplicating main. Hence formation of the 3rd Sub Division at Soldevanahalli is an urgent necessity.

4. I therefore request that sanction of Government for the formation of the 3rd Sub Division at Soldevanahalli with the establishment noted above for which there is provision in the sanctioned estimate for a period of two years may kindly be obtained and communicated.

A Statement of Establishment Charges Cost per year is enclosed.
